

Canon

imageRUNNER C5185i

Our Favorite Feature:

Device Management and Security Features – The Color imageRUNNER C5185i offers a host of device management features ease administrator / user burdens associated with installing, monitoring, and managing Canon and third-party print devices on corporate networks. Canon also provides peace of mind through a number of security features and options, such as Encrypted PDF and Digital Device

Signature, which enables the recipient to verify which device scanned the document. In addition, accessibility accessories, such as the Remote Operator's Software Kit, provide better device access for disabled persons.
